

**Greater Lawrence/Far Eastside
Healthiest Cities Challenge Steering Committee**

The Healthiest Cities Challenge demonstration project has recruited a broad cross-sector team to plan and manage the Initiative. As the table below indicates, this team includes local government, health care, education, private sector, state and local health departments, youth organizations, community development, faith organizations, philanthropy, and nonprofits. The partners individually and institutionally represent the diversity of the community in age, gender, race, ethnicity, political party, and economic sector.
