

THE PLEDGE FOR *Community Supporters*

We support the mission of Jump IN for Healthy Kids, and we pledge to do our part to inspire children, youth and their families to lead healthy lives in our community:

- › We will support policies to ensure that all families have access to affordable, healthy food in their neighborhoods.
- › We will support policies to ensure that children and their families have safe and accessible places to be active and play.
- › We will work to raise public awareness about the value and benefits of making healthy choices.
- › We will strive to improve the culture of health in our community by modeling healthy behaviors and by encouraging others to make healthy choices.

We pledge to make central Indiana a place where children and their families have real opportunities to make healthy choices in a healthy environment.
